Order Instituting Rulemaking on the
Commission's own Motion to Consider a
Comprehensive Policy Framework for Recycled
Water.

Rulemaking 10-11-014
(Filed November 29, 2010)

ORDER EXTENDING STATUTORY DEADLINE**Summary**

This decision extends the statutory deadline in this proceeding to October 10, 2014.

Background

Public Utilities Code Section 1701.5 provides that quasi-legislative matters such as this rulemaking shall be resolved within 18 months of issuance of the scoping memo for the proceeding, unless the Commission makes findings why that statutory deadline cannot be met and issues an order extending the 18-month deadline for a period not exceeding 60 days.

In this proceeding, the first scoping memo was issued on June 16, 2011. On September 28, 2012, an amended scoping memo to revise the schedule of the proceeding and to extended the 18-month deadline for resolving the proceeding until December 16, 2013. On February 1, 2013, the Commission staff issued the Recycled Water Workshop Report and parties actively commented on the report.

On June 3, 2014 the State Water Resources Control Board issued Water Quality Order 2014-0090: General Waste Discharge Requirements for Recycled Water Use. It appears these discharge requirements are intended to facilitate the

use of treated wastewater in order to reduce demand on potable water supplies. Issuance of Water Quality Order 2014-0090: General Waste Discharge Requirements for Recycled Water Use has necessitated additional review and analysis. Therefore, a 60-day extension of the statutory deadline until October 10, 2014 is necessary.

Waiver of Comment Period

Under Rule 14.6(c)(4) of the Commission's Rules of Practice and Procedure, the Commission may reduce or waive the period for public review and comment of decisions extending the deadline for resolving quasi-legislative proceedings. We waive the period for public review and comment pursuant to this rule.
